

# What if **you** weren't safe in the bathroom?

**Transgender folks are among the most vulnerable targets for harassment and assault, especially in public bathrooms. **Seventy percent of respondents in a DC Trans Coalition survey reported these kinds of abuse in gender-segregated bathrooms.****

Make bathrooms (and everywhere) safe places for everyone.  
**Stop trans harassment.** Let people use the restroom in peace,  
and speak up if you witness harassment.
